

Clark Forklift Part

Clark Forklift Part - Currently, there are over 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive brands of forklifts, with components covering more than 120,000 particular components for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your parts requirements provided by Clark Totalift.

Clark features a phenomenal Parts Supply team. The parts warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Internationally, Clark has one of the most outstanding dealer support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the worker restraint system. This exceptional commitment to safety is at this time a customary feature on every lift truck.

Clark's relentless mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the globally approved quality standard ISO 9001 for every one of their manufacturing plants. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a prevailing market position.

Clark has preferred the extremely economical and beneficial structure of "Lean Manufacturing" for its assembly plants and use of resources. This system was developed to acknowledge the most effective method of manufacturing facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The contemporary value engineering agenda combines innovative product development and provides improved client support and service within the industry.
